Consumer Outreach

Describe consumer outreach efforts in the past 12 months: The Filer is a reseller of Commercial Mobile Radio Service. The Filer has instructed its sales staff about the availability of HAC phone models and it has signs in each store advertising the availability of HAC devices. The Filer's sales staff is aware of the HAC-compliant handset issue and has been trained to respond to customer inquiries regarding HAC-compliant phones. The Filer has wireless industry pamphlets available that customers can take home with information about the Commission's HAC requirements and HAC rating system. Information is also supplied on the Filer's website. In addition, both hearing-impaired and non-hearing-impaired customers are permitted to test the phones in the retail stores. Furthermore, the Filer has a policy that allows customers (hearing-impaired and otherwise) to test handsets and service without commitment for up to two weeks. If the customer is not satisfied, the customer may return the handset free of charge (assuming that it has not been damaged) at the end of the two-week trial period.

Methodology for Functionality Levels

Class 1: Phone includes bluetooth, volume control, vibration, speakerphone and qwerty keyboard.

Class 2: Phone includes bluetooth, volume control, vibration and speakerphone.

Class 3: Phone includes volume control, vibration and speakerphone.

Class 4: Phone includes volume control only.

Report Remarks

For some unexplained reason, the Commission's software will not allow the report to be submitted listing the LG 300. Instead, the following message appears: "The entered Handset Model name already exists for the specified Handset Maker." In view of this, the following information is offered:

The LG 300, FCC ID BEJAX300, operates on the 850 MHz Band CDMA air interface, and was offered from June 2009 to date. It is not capable of Wi-Fi voice operations. It is a Class 2 phone. It is rated M3/T3.
